'SHINERS SHOOT AT MADISON OFFICERS

Location of Two Illicit Still
Found Near Big Hill In Old
Madison County.

You don't have to go up to the mountains of eastern Kentucky to find the festive moonshiner who is flourishing like the green bay tree in these piping times of prohibition. If you think you do, just ask Sheriff Pete Whitlock and the bunch of officers, state and federal who engaged in a running pistol fight with a couple of 'shiners, in the Big Hill section of Madison county Wednesday afternoon.

A lot of folks from the Berea section had been complaining that a couple of illicit stills were working overtime in the Big Hill hills. Deputy U. S. Marshal Hugh Samuels, who was at his home here on his vacation, joined a searching party composed of Sheriff Pete Whitlock, Deputy Sheriffs Sam Bush and Will Johnson, of Berea. They located where two stills had been in operation, but did not find the moonshiners. When they got too close to their game in the woods, someone began shooting at them. The officers pulled their guns and answered the fire but no one was hit, so far as known.

The officers say that they know who one of them men who was fired a them, and say his name is Jim Powell, known as "pistol Jim." Warrants will be issued for his arrest, it is said, and bring him and any other guilty parties to justice. The officers say that it isn't the most pleasant thing in the world to be walking along in the woods and have someone begin taking pot shots at you, and they mean to stop it as well as to the game the 'shiners are playing.

THE LATEST OIL NEWS

Mohney Brothers, and others are held up at No. 2 William Shoemaker in the Poplar Thicket section for lack of water. The last well drilled in by the Petroleum Exploration Company came in Saturday with a showing for 50 barrels and a one-half million foot gas well. This is on the Wells heirs tract.

The Petroleum Exploration Co., will shortly install equipment including 5 engines and 5 pumps secured from the Bessemer Gas Engine Company.

The Russell Oil Company has ordered a carload of power and engines from the Bessemer Gas Engine Company to be used on the Hall and Burke farms. A carload includes 5 pumps. In addition to the powers already on the lease, the National Refining Company is installing three 25 horse power gas engines and 3 pumps.

The deepest test drilled in this section was put down some months ago at No. 6 H. T. Shoemaker by the Atlantic Oil Producing Company. The total depth was 1,997 feet. At 1,200 there was a light showing, in the corniferous, in the Clinton from 1,545 to 1,580 feet. The well was shot at 1,575 feet an also at 1,997 feet but did not make a producer.

On the William Treadway farm after 30 days pumping and the salt water has been exhausted and the wells are making oil. There are two on this lease and one dry hole. This was formerly the property of the Tom Corwin Oil and Gas Company but has been purchased by local parties.

The Reelce and Poole Oil Companies have drilled in No. 1 Dickerson which rose 700 feet in the hole after the shot and is credited with 25 barrels.

Atlantic Oil Producing Company No. 1 J. S. Fraley, dry.

Atlantic Oil Producing Company has located No. 6 on the Kincaid and will move a rig on shortly.

Montana parties are starting to drill No. 1 William Shoemaker which will offset No. 1 Andy Shoemaker, belonging to the same parties, and No. 4 Green Adams of the Atlantic Oil Producing Company.

NOTICE

We have arranged for all customers, that buy the \$5 laundry books, that were advertised in Saturday's Register, if they wish to leave their coupon books with us, we will tear off coupons for the amount of bill each week and send with the package as a receipt. The Madison Laundry, phone 352. 205-3

TO THE DEMOCRATS OF MADISON COUNTY

I have just seen several of the circular letters being sent out by my opponent, Mr. Collins. In this letter he makes several statements, none of which are true, and I wish to call the attention of those who may have received this letter to the statements thereof.

He states that I have said he was running a spite race. I have never said that. I did say, and now say that Hugh Colyer, his brother, was the cause of his running, and he did not get Collins into this race until he tried to get two attorneys of the Richmond bar to run, and one farmer. Failing to get them to run, he circulated petitions in the county to get Collins to run, and finally pushed him in.

Why does he not tell you of some of the offices created by the Legislature of which I was a member? There were no offices created by that assembly. They were created by the 1917 special session of which I was not a member, and Collins knows it. He asks what has become of the men whose offices were abolished, and answers it by saying they are still at Frankfort, eating out of the public crib. Why don't he tell you the names of some of those still there eating out of the public crib? Is Colyer there? Is Eli Brown there? Is Noble Harris there? Is Harry McLaughlin there? Now why don't he be fair and honest with you and tell you who are still there whose offices were abolished? He says the abolition of these offices have cost the state a half million dollars. Why don't he tell you how? He knows that the statement is false. He says the records at Frankfort prove the fact, yet he fails to cite you to a single record and he has not even examined the records, and when he makes the statement he is quoting Colyer, his brother. Mr. Collins says he is a farmer, yet he does not live on his farm, does not manage and control it, but has allowed it to grow up in weeds, and the fences fall to pieces. All one has to do to judge the kind of farmer he is and the kind of attention the interests of the farmer will receive at his hands is to look at his farm. He was farm demonstration agent here for years, drawing of the people's money the sum of \$2,400 per year and all expenses, and yet not a farmer in the county received any benefit from him or through him while he had that lucrative office—which I may add here was also abolished so far as Mr. Collins is concerned.

He insinuates that I am a chronic office seeker. Mr. Collins in addition to the office above mentioned, has been City Attorney of the city of Richmond, Ky., for two terms, has been Master Commissioner of the Madison Circuit Court for six years, and since he has been 21 years of age, has either been in office or a candidate for office.

I regret that it has become necessary for me to write this letter, but in view of the circulation of the letter Mr. Collins has seen fit to circulate, and having waited until the campaign is nearly over to do so, I deem it nothing but proper that the voters of the county know the true facts.

Respectfully,
206 It H. C. RICE.

Revival To Begin At Waco

Rev. G. A. Lichteiter, of Canada, will begin a protracted meeting at the Waco Baptist church next Sunday. All are cordially invited to attend the services.

HONEYBEES MAKING A RECORD

The honey crop of the United States was 92.1 per cent of normal on July 1, according to the estimates of the United States Department of Agriculture. Reports to the Bureau of Crop Estimates warrant the estimate that the yield of surplus honey per colony was 25.3 pounds, and about one-half of the annual product per colony was realized by July 1. At the same date in 1918 the estimated surplus was 21.4 pounds per colony. The high condition of 92.1 per cent of normal on July 1, this year compares with 86.7 in 1918 and 86.2 in 1917.

YOUR PATIENCE AND PRAYERS ARE INVOKED--THE DAILY REGISTER IS MOVING

The patience and consideration of readers and subscribers, is invoked for a few days while the Daily Register is being moved to its new home, which is about ready for occupancy on South Second street. Owing to the fact that the new Duplex press ordered last March will not get here for a couple of weeks yet, the Daily Register will be printed on the press of its courteous contemporary, the Pantagraph while the Daily Register's old press is being moved. Every effort will be made to get the paper out daily without loss of a single issue while moving is in progress. It's some little job, and it will take some little time before things

are running smoothly in the new building. Nelson Brothers finished up the plastering work on the new building today and Charlie Ballard, the colored concrete contractor, has done a splendid job on the floor. The cornice work has not yet arrived, however, and many other little details are incomplete. The Daily Register hopes to be able to extend an invitation to its friends to visit it in its new home at no distant date, when everything is complete and running smoothly. In the mean time, your forbearance is sought; if the paper is late or not up to the standard. This moving a printing office is sure some job.

BAPTIST PLAN FOR BIG DRIVE

Ellis and Evans To Head Organizations In This Section In
\$75,000,000 Campaign

Rev. C. S. Ellis, of Paint Lick, has been named as chairman of the Southern Baptists' \$75,000,000 Drive for the Tate's Creek Association, while Mayor L. P. Evans will head up the campaign that will be made by the First Baptist church at Richmond to have a part in this big movement which is scheduled for next November 30—December 7.

At the Southern Baptist Convention in Atlanta, Georgia, in May, with more than 5,000 Baptists assembled, it was unanimously decided to raise 75 million dollars, for missions, in home and foreign lands; furthermore than 130 educational institutions; for their many orphanages and hospitals; for their aged ministers; and for the National Memorial Church, dedicated to Roger Williams and Religious Liberty, to be built in Washington. A Campaign Commission was appointed, with Dr. George W. Truett, pastor First Baptist Church, Dallas, Texas, as Chairman, and one member from each of the Southern States. At a meeting in Atlanta, Georgia, early in June, the Commission met and made out plans for raising the 75 million dollars. Dr. L. R. Scarborough, president of the Southern Baptist Theological Seminary, Ft. Worth, Texas, was elected General Director, and his headquarters established at Nashville, Tennessee.

At a meeting composed of nearly 200 representatives from every phase of the denomination's life and work, in Nashville, Tennessee, July 2nd and 3rd, a complete program and organization for the campaign were effected. Each of the Southern States will be organized, with the State Secretary of Missions as the General Director for that state. He will be aided by a General Organizer and a Publicity Man, and an Advisory Campaign Committee, made up of the three persons above named, the Campaign Commissioner from that state, the editor of the Baptist paper, the Secretary and Vice-President of the Women's Work, and the Chairman of the Laymen's organization. It will be the duty of these State Organizers to organize the sub-divisions in each state, called Associations or Districts. Each of these Associations or Districts will have an Organizer and a Publicity Director, and these will organize the churches, with a general Director, preferably the pastor; and an Organizer, some select layman; an Organizer, representing the Women's Work. All these organizations are to be aided by volunteer workers, from among men and women.

The name of the campaign is "Baptist Campaign." The time for the big drive will be November 30th to December 7th. This will be called "Victory Week" at which time cash and pledges in five years are to be raised to the amount of more than 75 million dollars. All the general organizations, The Foreign Mission Board at Richmond, Virginia, the Home Mission Board at Atlanta, Georgia, the Educational Board at Birmingham, Alabama, the Old Minister's Relief Board, at Dallas, Texas, the Laymen's Board at Knoxville, Tennessee, the Woman's Missionary Union Board, at Baltimore, Maryland, and all the state organizations, throwing themselves full length and full strength into the campaign. Three million Baptists are to go in and put it over. It is to be the greatest and most meaningful movement ever inaugurated by Southern Baptists. Its issues to the cause of Christ are incalculable. This money will help every phase of religious life represented by Baptists throughout the whole world. It is expected that every Baptist church, more than 25,000 of them; and every Baptist member, more than 3 million, will put themselves in a great fashion into this movement.

You are taking an awful risk every day that you let go by insuring your tobacco crop against hail, which may completely ruin it. See L. P. Evans, the Insurance Man of Richmond, at once. Best policies; lowest rates. 179 Im Nod's Fish & Oyster House. It

PREDICTS ANOTHER EPIDEMIC OF FLU

State Health Officer, Dr. McCormack, Gives Some Timely Advice On Subject

Reasoning by analogy, there will be another outbreak of influenza in Kentucky this fall, according to Dr. Arthur T. McCormack, State health officer, who addressed the Red Cross Institute at the University of Kentucky this week.

"Statistics show," he said "there has always been an outbreak the first and second year after the epidemic, not as extensive as the epidemic itself, extensive enough to cause a radical increase over the ordinary death rate."

According to Dr. McCormack, 4,000 die from pneumonia in the state every year while last year 15,000 died this cause. "Reasoning from our own and previous epidemics," he said, "if no precautions are taken the death rate this year will be between 9,000 and 10,000."

"That death rate is wholly unnecessary," continued Dr. McCormack. "The death rate should be nothing like 4,000 and year if every individual in every county of Kentucky would assist by doing the simple things necessary." If they would do this now the death rate in 1919 would be less than in 1917, when there was no epidemic.

In the first place, Dr. McCormack advised everybody to be inoculated against influenza-pneumonia during the last two weeks of August or the first two weeks of September. The vaccine used is very simple and produces practically no reaction. Of more than 300,000 inoculated last year only three died of pneumonia, according to the State health officer.

Dr. McCormack also advised, in addition to the inoculation, that when one takes a cold he should take the proper medicine and go to bed, remaining there until he is well. His room should be well-ventilated and he should avoid coming in contact with any members of his own family. Especially should one having a cold keep away from theatres, churches and other places where crowds are gathered.

"If every one would do this," Dr. McCormack asserted, "there would be no epidemic and practically no deaths from influenza and pneumonia."

Every year in Kentucky there are 14,000 deaths from preventable diseases, he said, but conditions are gradually improving. Since 1910 for instance, the death rate from diphtheria has been reduced one-tenth because antitoxin has been given in time and because the disease is now recognized more quickly. The typhoid fever death rate has also been reduced 50 per cent in that time.

"But what we ought to do," said Dr. McCormack, "is not only to reduce the death rate, but to eliminate the diseases themselves in these classes. This could be done at much less cost than the people of Kentucky have now."

"It is true a few more doctors would be necessary, but in the long run much money would be saved. An individual cannot purchase health, but a community can by establishing proper conditions."

Dr. McCormack recommends a health department in every county of the State as rapidly as it is possible to provide trained officers.

"It would be easy to elect one to this office," he said, "and let him learn during his incumbency how to administer, but about the time he learns someone else wins out, and gets the job."

TO THE CITIZENS OF MADISON COUNTY

In Wednesday's issue of the Daily Register, there appeared an article signed by H. C. Rice, attacking me for the interest I am taking in the race against him for Representative.

Mr. Rice, as he states, was a member of Stanley's Probe Committee, which committee was never anything but a scare head and was appointed not for the purpose of investigating any offense, but for the sole purpose of signing a report, the substance of which had already been prepared and dictated by Stanley himself.

I went to Gov. Stanley and offered to hand over to him my office if he wanted to actually do away with our Fire Rating Board but I found out at that time that it was not the taxpayers in whom he was so interested, but he wanted to get rid of a few men who would not absolutely bow to his dictates.

To cover up his real purpose he had this Probe Committee appointed and through its chairman absolutely dictated this report.

The Fire Rating Board was not abolished but simply had its name and the personnel of some of its members changed. The salaries and expenses of this Board was paid by the insurance companies. The new Board has about six members and employees, whose combined salaries aggregate nearly \$14,000, instead of \$3,500 as my friend Rice would have you believe, and every dollar of this is paid out of the state treasury. Let me say here that the fire insurance companies made three attempts to raise their rates while the old board was in existence but we would not permit it. Shortly after the new board began business these same companies raised their rates 10 per cent, thereby collecting \$600,000 more premiums per year from the taxpayers of Kentucky. I wonder if the insurance companies had anything to do with changing these boards?

Mr. Rice refers to my soliciting two different attorneys to make this race. I never mentioned it to any attorney except Joe Prewitt Chenault, and I did that upon the suggestion of some good farmers who realized that Mr. Chenault's kinsmen were some of the most extensive farmers in the county and he would therefore, have sound advice upon any farm legislation that was proposed.

Mr. Rice says he voted for some good farm legislation in 1918 legislature. Let's see. He enthusiastically supported the "dog tax law." Do you think it is a good law? He also voted to give our State Tax Commission \$35,000 per year. This commission said you must raise Madison county's assessment four million dollars. Do you think this is good farm legislation?

I want Mr. Rice to show us some good farm legislation. I don't think he knows good farm legislation and his vote for the two bills just referred to, proves this beyond any doubt.

My part in getting T. H. Collins to make this race is as follows: Several farmers came to me and asked me to join them in soliciting Collins to run and circulating petitions for that purpose, some of them already having talked to him. He required of them 500 names on these petitions. I had one petition on which there were less than 100 signatures. Other men had petitions and all in all there were more than 600 petitioned Collins to make this race. Yes, I am for him—first, because he is my brother; second, because he is a successful farmer, and recognized by the farmers of this county and by the Agricultural College at Lexington as being as well posted as any farmer in Kentucky; third, because I know him, and I know he will not be subject to the dictates of any man or machine.

There they stand—Rice and Collins. The only question for you to decide is which one will make you the best representative. Respectfully,
206 It H. H. COLYER.

INTEREST GROWS AS ELECTION COMES

Enquirer Says Carroll May Win By Small Majority—Others Think Black Certain Victor

With the state primary and the special congressional election on Saturday, friends of the various candidates are leaving no stone unturned to get out a good vote for them. There is a great deal of local interest in several of the races, indications are now that the vote in Madison county will be about up to the normal.

Friends of both candidates for representative on each ticket, are mighty busy during the closing days of the campaign, and these two races promise to be about the hottest in the county by the time the polls close.

Out in the state friends of both Black and Carroll are working with might and main. The Cincinnati Enquirer Sunday said that it looks like Carroll would win by a small majority but friends of Gov. Black are unwilling to concede it, and are claiming his nomination by a big vote. The Louisville Herald's political prophet sees Black's certain victory. That paper said: Governor Black is strongly entrenched in his lead over Judge Carroll in the Democratic gubernatorial campaign according to reports received by The Herald from men in every county in the state who are believed to be in position to give an unbiased opinion on political conditions. Based on estimates that 60 per cent of the normal Democratic vote will be cast in the primary, Governor Black should win by 14,495 votes, according to these reports.

Apathy prevails throughout the state, and should this continue thru next Saturday the estimated majorities furnished The Herald may be further reduced in a number of districts. The final stages of the campaign, according to some of the leading politicians here, has "resolved into a contest which will determine whether the predominant element of the state machine will be able to override the sentiments of the rank and file of the Democratic voters."

Democrats Wage Bitter Fight. It is no longer a secret that a majority of the Democratic politicians whose names are associated with the state machine are exerting every ounce of their strength, and every bit of strategy at their command, in behalf of Judge Carroll. Governor Black all reports indicate, has the rank and file with him, and his chance of winning the nomination lies in the ability of his organization to get out the vote and overwhelm the machine followers.

Governor Black, according to the state-wide forecast, will carry the First, Third, Fourth, Eighth, Ninth, Tenth and Eleventh districts; and Judge Carroll the Second, Fifth, Sixth and Seventh districts. The estimated majorities, by districts, follow:

For Governor Black—First, 3,855; Third, 2,340; Fourth, 660; Eighth, 4,550; Ninth, 4,560; Tenth, 3,935; Eleventh, 5,690.
For Judge Carroll—Second, 695; Fifth, 2,500; Sixth, 4,575; Seventh, 3,325.

My part in getting T. H. Collins to make this race is as follows: Several farmers came to me and asked me to join them in soliciting Collins to run and circulating petitions for that purpose, some of them already having talked to him. He required of them 500 names on these petitions. I had one petition on which there were less than 100 signatures. Other men had petitions and all in all there were more than 600 petitioned Collins to make this race. Yes, I am for him—first, because he is my brother; second, because he is a successful farmer, and recognized by the farmers of this county and by the Agricultural College at Lexington as being as well posted as any farmer in Kentucky; third, because I know him, and I know he will not be subject to the dictates of any man or machine.

There they stand—Rice and Collins. The only question for you to decide is which one will make you the best representative. Respectfully,
206 It H. H. COLYER.

POLITICAL ANNOUNCEMENTS

The Daily Register is authorized to announce the following candidates for nomination subject to the action of the Democratic Primary, August 2, 1919:

For Representative

H. C. RICE

T. H. COLLINS

For Representative in Congress subject to the action of the Democratic party and the special election to be held August 2, 1919, in the Eighth Congressional District:

CHARLES A. HARDIN

of Mercer County

Only a few days until the voters of the old Eighth congressional district are to be asked the question whether or not they endorse the efforts that Woodrow Wilson has made to make the world safe for peace for all time to come. Will they send a man to Washington to heckle and criticize him or a man who will ever be found supporting him in his great work. There is no other question involved in this special congressional election. Do you, Mr. Voter believe that Woodrow Wilson is doing right in advocating the peace treaty and the League of Nations to preserve world peace, or are you with Senators Borah, Lodge and the others who seem to care for nothing except to make political capital. On the one hand stands Judge Hardin with Wilson and on the other King Swope against Wilson. Take your choice. The Courier Journal stated the case cogently the other day in the following:

"Opposed candidates in the Eighth Congressional District are King Swope, of Boyle county, and Judge Charles A. Hardin, of Mercer. The Republicans will make an energetic effort to capture a Democratic district by electing Mr. Swope. The Courier-Journal would not assail Mr. Swope, but it can say, and feels obliged to say, without the slightest intention of discourtesy to the Republican candidate, that it hardly can be argued that his qualifications for the office he seeks, as indicated by antecedent activities and achievements, are equal to those of the Democratic candidate.

Kentucky, normally a Democratic State, should at this critical period of history, the beginning of the reconstruction period in Europe and the readjustment period in America, when Congress will be called upon as never before for wise decisions, have in Washington as her representative men who will support the policies of the Democratic party, which more truly than those of the party now in power in Congress reflect the sentiment of the majority in America. The death of Representative Helm robbed Kentucky of one Democrat in Congress. Another should be sent to fill the vacancy. Judge Hardin is an ardent Democrat and a capable man.

The Republicans will concentrate upon the election in the Eighth District effort which would at a regular election be devoted to several districts, hoping to make the loss of a seat in the House by the Democrats seem a slap at the League of Nations which many Republicans in the Senate oppose. Democrats should keep

Simple Operations Fitted Together

The business of Swift & Company is the fitting together of many simple operations.

No one thing in a packing business is particularly difficult for men trained to do it; but no one thing is enough.

Thousands of other operations, properly performed, are necessary for the completed processes. And some one must fit together all these thousands of simple operations.

The success with which a packing business performs its function of supplying the best possible meat products to the consumer with the greatest possible benefit to both him and the producer depends upon the energy, brains, experience, and faithful effort of the men trained in the business.

Swift & Company turns the producer's live stock into meat for the consumer at a profit of only a fraction of a cent a pound, because it fits these operations together with the least waste, overlapping, and friction.

Do you believe government direction could do it better?

Let us send you a "Swift Dollar".
It will interest you.

How Are You Going To Keep 'Em Down On The Farm ANSWER

With Electric Lights

DELCO LIGHTS MAKE THE FARM HOME MORE ATTRACTIVE
TO THE GIRL OR BOY

When Delco Light is installed there is no longer as great incentive for the son or daughter to go to the city. Its conveniences are brought to their home in the country.

The daughter can have electric lights in her room, an electric curling iron and all other comforts that are so much desired by young women. It makes the chores easier for the son and provides power for operating labor saving tools.

Delco Light so modernizes the farm home that it brings cheer and satisfaction to every member of the family.

Prices on the Delco Light system advance \$50 on the first of August; also an advance of \$30 on the Delco Light Water System. Buy now and save the difference.

If you are desirous of bringing your home up to date and of giving your wife and family a real home, with lights, bath, running water, etc., get in touch with the

Mr. and Mrs. George Goodloe, Miss Margaret Chenault and Master Joe Chenault spent Wednesday in Lexington.

Miss Emma Davison has issued invitations to a 500 party Saturday afternoon at her home on Lancaster avenue.

The many friends of Mr. Joe T.

Life Was a Misery

Mrs. F. M. Jones, of Palmer, Okla., writes: "From the time I entered into womanhood . . . I looked with dread from one month to the next. I suffered with my back and bearing-down pain, until life to me was a misery. I would think I could not endure the pain any longer, and I gradually got worse. . . Nothing seemed to help me until, one day, . . . I decided to

TAKE

CARDUI

The Woman's Tonic

"I took four bottles," Mrs. Jones goes on to say, "and was not only greatly relieved, but can truthfully say that I have not a pain."

"It has now been two years since I took Cardui, and I am still in good health. . . I would advise any woman or girl to use Cardui who is a sufferer from any female trouble."

If you suffer pain caused from womanly trouble, or if you feel the need of a good strengthening tonic to build up your run-down system, take the advice of Mrs. Jones. Try Cardui. It helped her. We believe it will help you.

RICHMOND, KY

After August 1, 1919

Our business will be conducted on a strictly Cash on Delivery basis. We do this on advice of the majority of our customers the State Laundrymen's Association and the knowledge that we will be able to give the public better service and a higher quality of work.

For the convenience of those who do not want to be bothered with the detail of paying the salesman (driver) each week, we have had printed a number of \$5 laundry coupon books, which we will sell for \$4.75, a discount of 5 per cent for advance payment. These books are similar to ice coupon books and can be hung on the back porch where our salesman (driver) can have access to them at any time.

We are sure the public will be quick to recognize and appreciate the advantages of this system.

Respectfully,

The Madison Laundry

KING SWOPE SHOULD BE ELECTED

King Swope should be elected—he is young and possesses all of the qualifications, all of the energy, all of the ambition, all of the enthusiasm which makes youth the moving-power of the world. He has the vigor and vitality of today; the vision of tomorrow. His eyes are turned forward, not backward. For him a seat in Congress in his life's opportunity and he knows enough to know that to make good is to assure his future. He has not held office; he is not track sore; he can go the distance, with speed to spare. His opponent has had his day, his honors and his election will mean to him no new energy; no new thrill of gratitude to be expressed in service. Swope is capable, splendidly educated, a most convincing speaker, and will accomplish for his constituents ten things while his older opponent is hesitating about the advisability of doing one. His party is now in power in Congress, and he can therefore, with every hope of success, strive for legislation which will promote and protect the interests of the farmer, the hemp and tobacco growers of his district and can more successfully oppose legislation adverse to their interests than can his opponent, who is out of line with Congress.

Swope stands against Stanley and Stanleyism: his opponent stands for Stanley and Stanley's crowd, and was the main wheel of the discredited Stanley machine. To send Hardin to Congress means more power now and in the future to the Stanley "Highlanders." A vote for King Swope means a vote for youth, energy, enthusiasm, capacity and patriotism.

The above is taken from a letter from Ed Morrow, Republican nominee for governor. Adv.

FOREST HILL

Mr. Lindsay McCuddy, of Nicholasville, visited Mrs. A. H. Wells and family Sunday.

Miss Mattie Burgin, of Jackson county, is the guest of Mr. Elize Cosby.

Miss Mina Moore, of Red House, visited her grandmother, Mrs. Bettie Powell a few days last week.

Mrs. Homer Butler has returned to her home in Winchester, after spending a week with relatives at this place. She was accompanied home by her sister, Miss Ollie Butler.

Mrs. A. H. Wells and Mrs. Lindsay McCuddy spent a few days last week with Mrs. Dona Smiley of Moberley.

The farmers of this community are very anxious for a rain as their crops are damaging very badly and water is getting scarce.

GIRLS! USE LEMONS FOR SUNBURN, TAN

Try it! Make this lemon lotion to whiten your tanned or freckled skin.

Squeeze the juice of two lemons into a bottle containing three ounces of Orchard White, shake well, and you have a quart of the best freckle, sunburn and tan lotion, and complexion beautifier, at very, very small cost.

Your grocer has the lemons and any drug store or toilet counter will supply three ounces of Orchard White for a few cents. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day and see how freckles, sunburn, windburn and tan disappear and how clear, soft and white the skin becomes. Yes! It is harmless. 1t

PUBLIC - SALE

Your
Opportunity
Is Here

25 Monster Big Type Poland China Pigs 25

In order to make room for our Fall pigs, we will sell at public auction at the East End Stock Yards in Richmond, Kentucky, on

Monday, August 4th

(County Court Day) at 2 o'clock p. m., 25 Monster Big Type Poland China pigs—25—16 boars and 9 gilts.

This offering represents the cream of Big Type and is the pick of our entire spring crop of pigs. They are out of those big 800 and 900 pound sows and sired by that Blue Grass Giant, a young boar that bids fair to go to the top.

In laying our foundation herd, I spared neither time nor money in getting the best so you may go to the east or west and you won't find any better bred pigs than these.

Land is high—so are hogs and feed. It costs no more to raise a 400-pound thoroughbred than a 250-pound scrub. So why go on raising scrubs when you can buy at this sale a nice young herd of thoroughbreds at your own price. Of course we are losing money by selling these pigs so young but we must have room and your profit is our loss. Whether you buy or not, come and see our herd Sales day.

Pedigrees will be furnished on day of sale. Crates furnished for pigs to be shipped only.

PEARSON & WALLACE

Col. Pearson Will Sell the Offering
